HILMAN ROLLERS

Since 1953, **Hilman Rollers** has produced high capacity roller dollies of the highest quality. Early customers used **Hilman Rollers** primarily for installing and relocating machinery. Over the years **Hilman Rollers** have been put to the test in a much greater variety of applications.

Some markets where **Hilman Rollers** have proven to be useful:

Hilman Rollers' mission statement summarizes our commitment to our customers.

Hilman Rollers strives to provide the finest quality products at a fair price and in a timely manner, to work as equal partners with our customers and distributors by assessing their needs and providing the right products to meet or exceed those requirements; to constantly improve quality and reduce cost through continued improvement of each internal department; and to provide proper support by maintaining a knowledgeable staff who possess the tools and technology to perform their jobs.

Hilman Rollers can design, prototype, test and produce steel fabrications such as transfer tables and carts, heavy industrial conveyor lines as well as the track that the rollers ride on.

Hilman has gained the approval of DNV, Lloyd's, BV, SGS, ABS and other third parties; and **Hilman** is certified ISO-9001:2000 and CE approved.

Our staff is available to go anywhere in the world to consult with you about your projects.

FT SERIES

- DELUXE KITS 15 - 60 TONS
- ECONOMY SETS 15 - 200 TONS

Everything required to make heavy moves up to 200 tons is included in Hilman's Deluxe Kits and Economy Sets! Both include four swivel locking Hilman Rollers with either padded or diamond steel tops and two steering handles. Four preload pads are also included with rollers having the SLD style top. Sets contain full length steering handles. Kits contain knock down handles that fit into a sturdy storage case. Kit cases are lockable and have lifting grips for easy handling, providing protection from exposure and theft. Each kit or set provides the necessary gear to tackle a moving project up to that respective capacity.

INDIVIDUAL ROLLERS 3.75 - 50 TONS

With six capacities, two moving types (rigid and swivel locking) and three top styles (padded, diamond steel and smooth steel), there's a model perfect for almost every heavy moving applications in this Hilman Rollers series! For straight line moves, specify the rigid roller. For turns, even in the tightest of corners, use the swivel locking rollers. The swivel-locking type combines swivel and rigid designs with spring loaded locks that can engage every 45 degrees. Steering handles are available for Swivel Lock types in 3 lengths. H36F (36" / 914 mm), H48" (48" / 1219 mm) and H60F (60" / 1524 mm).

FT Series Hilman Rollers have three versatile top plates. "D" tops have a spike-like steel grid able to grip into wood and provide a secure move for crated or palletized equipment. "P" tops, with built-in neoprene pad, allow some compression and provide a non-slip surface, a versatile choice for moving on less than perfect floors or for moving metal based machines. "S" tops have smooth steel top, ideal for mounting the rollers to equipment or as a base unit for a variety of top modifications.

ERS SERIES

- **DELUXE KITS 15 - 50 TONS**
- **ECONOMY SETS 15 - 400 TONS**

With or without a kit case, these prepackaged Kits or Sets are the value leaders of the **Hilman Roller** line. Economy Sets, without kit boxes, are available in capacities from 15 to 400 tons. **Hilman's Deluxe Kits and Economy Sets contain four basic ERS Rollers, which can be used as is for straight line moving. Four swivel locking attachments with diamond steel tops are included, along with four preload pads and two steering handles. Handles in the Sets vary in length according to the capacity of the rollers; Kit handles are a two piece knockdown style to fit into the steel case. All the deluxe gear necessary for your important project is provided.**

KRS-50-ERSD

• INDIVIDUAL ROLLERS 3.75 - 100 TONS

Hilman's ERS rollers are the lowest profile high capacity rollers in the world! Utilizing the endless chain concept, the basic individual ERS Roller is designed for straight line motion, yet each can be outfitted with a removable swivel attachment for turning and positioning. Seven capacities are available.

• SWIVEL ATTACHMENTS

For the ultimate versatility, each **Hilman ERS Series Roller** can be outfitted with an **ERS Swivel Attachment**. Attachments add minimal height to the basic roller, while providing ability to make turns without jacking the equipment. Featuring chrome steel ball bearings for smooth operation, attachments come with diamond steel or padded tops and swivel locking devices. Padded attachments help minimize metal-to-metal slippage. Height Equalizers, which increase the height of the roller to that of a roller without swivel attachment, are also available for each roller size.

LIGHT DUTY SERIES

• RIGGERS KITS AND SETS 3 AND 8 TONS

Handy **Hilman** Riggers Kits and Sets are sure to be the most valuable maintenance tools in the crib! With a limitless variety of uses, they provide the ability to move up to 3 tons or 8 tons. Both Sets and Kits contain two steering handles and four padded rollers, which are offered either with all four swivel tops or with two swivel and two rigid tops. Sturdy carrying cases store all items in the kits. Sets are provided without the case.

RP

• INDIVIDUAL ROLLERS .75 AND 2 TONS

Featuring **Hilman's** endless chain action design, Light Duty Series Rollers come in either rigid or swivel type. Both versions are available topped with rugged no-slip pads or in a smooth top style, ideal for permanent mounting applications. Light Duty Series Rollers are low in height and high in capacity, combining the advantages of minimal lifting with controlled moving. Steering handle model H36T (36" / 914 mm) is available for the swivel rollers.

NYTON SERIES

• NYTON KITS 2 - 24 TONS • NYTON SETS 2 - 40 TONS

Moving heavy equipment on delicate floors? **Hilman's** Nyton Kits and sets are for you! These conveniently prepackaged Kits and Sets provide the advantage of a heavy duty chain action roller that can safely move equipment on modern coated, painted or epoxy topped floors without scarring the surface. Nyton Kits come with a heavy duty, lockable case to store all items between moves. All Kits and Sets contain four padded swivel rollers and two steering handles. The rollers in the larger kit capacities from 8 tons and up feature swivel locking devices.

Economy Nyton Set

Deluxe Nyton Kit

• INDIVIDUAL ROLLERS .5 AND 10 TONS

N3-RP

N.5-SP

N6-SLP

Combine solid, high impact nylon roll material with **Hilman's** continuous chain action design and the result is NYTON - a high capacity moving device that protects delicate floor surfaces during heavy moves. 1/2 and 1 ton capacity Nyton Rollers are available in padded swivel or rigid styles. 2, 3, 6 and 10 ton capacities are available in padded swivel-locking or rigid styles. All tops feature built-in pads, providing a non-slip surface able to compress over uneven surfaces, giving further floor surface protection. Steering handles are available for these rollers. H36T (36" / 914 mm) for the 1/2 and 1 ton capacity Swivel Nyton rollers. H36F (36" / 914 mm), H48F (48" / 1219 mm), H60F (60" / 1524 mm) for the 2 ton and up Swivel Locking Nyton rollers.

OT, NT, T SERIES

INDIVIDUAL ROLLERS .75 - 75 TONS

A variety of top plate styles, exceptionally strong materials of construction and a wide range of modification possibilities make OT, T and NT Rollers the true OEM leaders of the **Hilman Roller** line! Rollers in this series are built for long life and a wide range of operating conditions. For basic linear motion, these rollers are used as bearing sides, conveyors, guides, casters or dollies. Typical applications include the straight motion required for thermal expansion under a furnace or heat exchanger, as slides under nuclear shield doors, upside down as a conveyor in heavy die handling carts, in concrete forming for the casting and curing process as well in the launching of heavy segments, attached to a cradle for the launching of huge ships or as a heavy duty wheel-like device to mobilize grandstand seats.

The OT type has an oversized top, the T type has a flush top and the NT type has a long narrow top. The top plates add extra strength to the frame and variety to mounting capabilities, making one type ideal for cavity mount, bolt-on or weld mount. OT and NT Rollers are available with standard top plate sizes and mounting hole pattern, which can be modified to customer specifications. **Hilman** Elastomeric Preload Pads are available in either fabric impregnated or neoprene form for each roller model.

OT, NT SERIES TURNTABLES OT SERIES ROCKER TOPS

NT with Turn

OT with LRP

Turntables are available for OT and NT Series roller capacities from 5 tons to 75 tons. Turntables bolt to the base roller unit and allow the roller to swivel and provide some freedom of lateral motion in **Hilman Roller Accu-Roll** applications where tracks aren't perfectly parallel. Connection hardware is included.

Transverse (TRP) and Longitudinal (LRP) Rocker tops for the OT Series contain two attachment plates connected by a pivot pin assembly. Rockers are designed to be bolted to the base roller unit, then attached to either the load or the surface, enabling the roller to follow an incline or to allow a load to be tilted, launched or more accurately positioned. Connection hardware is included.

SHD SERIES

INDIVIDUAL ROLLERS 100-1000 TONS

Heavy structures skate almost effortlessly on **Hilman's SHD Series (Super Heavy Duty) Rollers!** With load capacities from 100 to 1000 tons per unit, virtually any load is transportable. Typical applications range from installing steam generators or precipitators, rolling entire bridges, advancing launching trusses, skidding drill works aboard offshore rigs, even relocating entire multi-story structures!

The same top plate configurations are available as for **Hilman Roller's OT, T and NT Series.** The "T" style top is flush with the frame body width and length. The "NT" style top overhangs the body at the ends. The "OT" style top overhangs the body sides. 150 and 200 ton SHD Series Rollers have long frame and wide frame configurations as well. Standard hole patterns are supplied in the OT and NT versions. The user can specify no holes if preferred. Special modifications, such as drilled and tapped holes, short or wide versions are also available.

ACCU-ROLL GUIDANCE SYSTEMS

- EXTERNAL GUIDANCE
- UPLIFT PREVENTION
- ALIGNMENT ASSURANCE

Hilman's Accu-Roll Guidance System, a positive external alignment option, can be added to any **Hilman Roller** as either a removable bolt-on or permanent weld-on system. In applications where load alignment is critical, or close tolerances, repetitive movement or uplift prevention are required, **Accu-Roll** often becomes an ideal solution to these heavy motion issues. Depending on the configuration selected, **Accu-Roll** will allow the roller to track precisely on a flat bar, I-Beam, rail or in a channel or trench. **Accu-Roll** on an OT or NT Roller combined with a turntable can allow the roller to follow a slightly skewed track. **Accu-Roll Guidance Systems** are custom made and available with a wide range of options and in various configurations for virtually any situation or application. Consult factory for recommendations.

WARRANTY

HILMAN WARRANTY

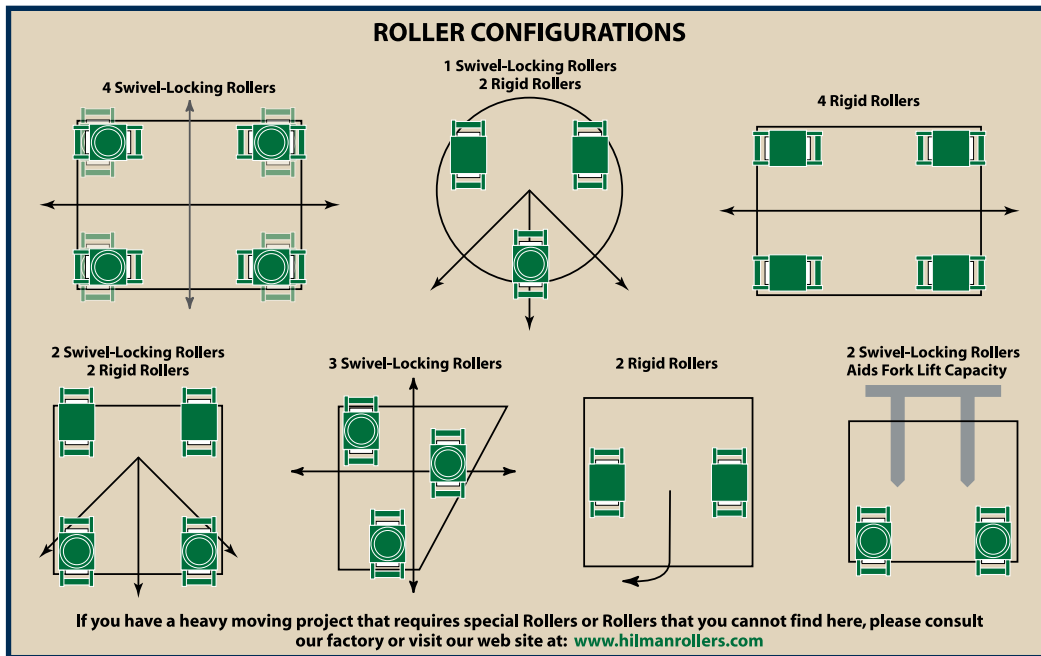

We warrant each new FT, ERS, and Nyton chain-action Roller sold by us to be free from manufacturing defects in normal service for a period of five (5) years commencing with delivery of the roller to the original user. All other Hilman products manufactured by Hilman retain a one (1) year warranty. Our obligation under this warranty is expressly limited to our option, to the replacement or repair at Hilman Rollers, Marlboro, New Jersey 07746 USA, or at a service facility designated by us, of such part or parts as inspection shall disclose to have been defective. This warranty does not apply to defects caused by damage or unreasonable use, including failure to provide reasonable and necessary maintenance, while in the possession of the consumer.

WE SHALL NOT BE LIABLE FOR CONSEQUENTIAL DAMAGES OF ANY KIND, including, but not limited to, consequential labor costs or transportation charges in connection with the replacement or repair of defective parts. We make no warranty with respect to trade accessories. They are subject to the warranties of their manufacturers.

THERE ARE NO WARRANTIES EXCEPT AS ABOVE STATED. HILMAN DISCLAIMS AND EXCLUDES ANY IMPLIED WARRANTY OF MERCHANTABILITY OF ITS GOODS OR WARRANTY OF THE FITNESS OF THOSE GOODS FOR ANY PURPOSE OR USE. Subject to the express one-year warranty provided for the repair or replacement of defective goods, the customer acknowledges that it makes its purchase in reliance upon customers' inspection of the goods purchased from Hilman and not by reason of any representations made by or on behalf of Hilman.

We make no other express warranty, nor is anyone authorized to make any on our behalf. Any and all claims arising against Hilman Rollers or subsidiaries or affiliated firms concerning the use of the Hilman Rollers shall be governed by the laws of the State of New Jersey in the USA.
